Project Specifications: 2 waterways are to be built in the Fall of 2015. Those waterways are to be sprigged or vegetated (Bermuda grass on the old waterway can be scraped and used). Bid accordingly. Terraces are to be removed and rebuilt in the Summer of 2016 or when grass has been established. Complete to NRCS specs. NRCS designs & maps attached. ****Note: the old terraces are in poor condition, so the footage of removal will be less. NRCS suggests staking the new terraces first and then remove what is necessary.**** Bid accordingly. NRCS's terrace measurements are approximate (not to exceed the footage listed). Vendor will be paid at completion of each item.

Bid according to units provided above. If you should choose to give a flat rate instead of bidding by unit price, CLO will not be able to adjust the cost up or down if actual units should change. In accordance with Oklahoma law, the CLO cannot pay for mileage. The vendor should include travel and all associated expenses in the total acquisition price. Do not quote travel and any associated expense separately on the bid request form.
